SCIENCE

Index to Volume 127
January–June 1958

DAEL WOLFLE, *Executive Officer*
GRAHAM DUSHANE, *Editor*
JOSEPH TURNER, *Assistant Editor*
ROBERT V. ORMES, *Assistant Editor*

Editorial Board

WALLACE R. BRODE
BENTLEY GLASS
EDWIN M. LERNER
WILLIAM L. STRAUS, JR.
EDWARD L. TATUM

Editorial Staff

MARY L. CRABILL, SARAH S. DEES, LUCILLE GUINARD, NANCY S. HAMILTON, OLIVER W. HEATWOLE, NANCY L. JACKSON, YUKIE KOZAI, ELLEN E. MURPHY, BETHSABE PEDERSEN, MADELINE SCHNEIDER, JACQUELYN VOLLMER, MARIA A. WOLSAK

EARL J. SCHERAGO, *Advertising Representative*

Published by the

American Association for the Advancement of Science

1515 Massachusetts Avenue, NW, Washington 5, D.C.

Printed in Lancaster, Pa., by Business Press

No.	Date of Issue	Pages	No.	Date of Issue	Pages	No.	Date of Issue	Pages
3288	3 January	1–48	3297	7 March	489–552	3306	9 May	1081–1136
3289	10 January	49–104	3298	14 March	553–616	3307	16 May	1137–1200
3290	17 January	105–168	3299	21 March	617–664	3308	23 May	1201–1264
3291	24 January	169–208	3300	28 March	665–720	3309	30 May	1265–1304
3292	31 January	209–256	3301	4 April	721–776	3310	6 June	1305–1360

3294	14 February	305–360	3303	18 April	833–896	3312	20 June	1409–1464
3295	21 February	361–440	3304	25 April	897–1016	3313	27 June	1465–1520
3296	28 February	441–488	3305	2 May	1017–1080			

Names of authors of books reviewed are printed in capitals and SMALL CAPITALS.

A

AAAS, affiliation of American Association of Bioanalysts, 767; affiliation of American Astronautical Society, 1006; affiliation of Geochemical Society, 1066; affiliation of Montana Academy of Sciences, 653; affiliation of Paleontological Research Institution, 712; amendments to constitution and by-laws, 397; Anne Frankel Rosenthal award for cancer research, 21; announcement of meeting of Pacific Division, 1190; announcement of 1958 meeting, 1246; announcement of ninth Alaskan Science Conference, 824; budget for 1958, 400; call for papers for 1958 meeting, 822; call for papers by sections, 1252; Campbell award for vegetable research, 76; combination of *Science* and *The Scientific Monthly*, 7; committees for 1958, 400; conference on science and mathematics teacher education, 1344; constitutional amendments, 397; council meeting 1957, 397; editorial policies of *Science*, 7; elections, 397; Ida B. Gould memorial award for research on cardiovascular problems, 183; Indianapolis meeting in retrospect, 403; Industrial Science Achievement award, 141; International Oceanographic Congress, 1163; Laurentian Hormone Conference, 886; Newcomb Cleveland prize, 139; nomination of new members, 1417; officers for 1958, 395, 397, 400; Parliament of Science, 261, 510, 673, 839, 852, 1120, 1399; president-elect, 395; public information service, 409; reports of sections and societies, Indianapolis meeting, 410; representatives for 1958, 400; resolutions, 397; and social aspects of science, 398; socio-psychological prize, 183, 636; statement by L. H. Snyder on education legislation, 580; traveling high-school science library, 562

AAAS (Alaska Division), announcement of ninth Alaskan Science Conference, 824

AAAS (Pacific Division), announcement of meeting of, 1190

Abelson, P. H.: Permafrost research (*letter*), 764

"Abominable snowman," 882

Abscission, role of amino acids in, 82

Absorption, infrared, of potassium bromide after irradiation in air, 234; shifts of bands, related to selective light scattering, 29; spectra, of Hill reaction oxidants, 647

Abstracting, of science literature, 313

Acanthamoeba, role in animal disease processes, 1506

Accelerator, at University of Chicago, 76; at Yale University, 867

Acclimatization, relationship of cold to food intake, 467

Acetylcholine, endogenous, in heart muscle, 468; in *Periplaneta americana*, 25

3-Acetylpyridine, and degenerative changes in the central nervous system, 644

Achievement, age of, among chemists, 1213

Achromobacter fischeri, action of electron carriers on, 188

Acid, organic, in lake water, 702

Acid, poly-, inhibition of ribonuclease by, 1392

Acridine orange, spectral changes accompanying binding by polyadenylic acid, 335

ACTH. *See* Corticotrophin

Actinomycetes, nomenclature of, 1003

Adair, E. J., and H. S. Vishniac: Marine fungus requiring vitamin B_{12}, 147

Adaptation, of enzymes in yeast mutants, 28; *meeting report* of Society of General Physiologists, 196

Adenine polynucleotide, structure of, 80

Adenylic acid, poly-, spectral changes from interaction with dye, 335

Ades, H. W. *See* F. J. Fry *et al.*, 83

Adlersberg, D. *See* R. H. Osborne, 1294

Administrative state, The (F. M. MARX), *book review* by W. J. Gore, 981

Admirable discourses of Bernard Palissy (A. La Rocque, translator), *book review* by E. Farber, 1439

Adrenal gland, inhibition of function of, by cholestenone, 704

Adrenochrome, condensation with ethylenediamine, 1390

Adsorption, and crystallization, 1239

Advances in agronomy, vol. 9 (A. G. Norman, Ed.), *book review* by W. H. Allaway, 1284

Advances in catalysis and related subjects, vol. 9 (A. Farkas, Ed.), *book review* by H. Eyring, 1285

Advances in documentation and library science, vols. 1 and 2 (G. L. Peakes, *et al.*, and J. H. Shera, *et al.*, Eds.), *book review* by S. Herner, 967

Advances in electronics and electron physics, vol. 9 (L. Marton, Ed.), *book review* by K. Bol, 809

Advances in pest control research, vol. 1 (R. L. Metcalf, Ed.), *book review* by C. Potter, 752

Aechmophorus occidentalis, respiratory properties of hemoglobin of, 705

Aerobacter aerogenes, in synthesis of oligo- and polysaccharides, 143

AGAR, H., The price of power, *book review* by W. T. R. Fox, 33

Age, and achievement in chemistry, 1213

Aghajanian, G. K. *See* D. X. Freedman, *et al.*, 1173

Agriculture, alfalfa seed production, 758; foreign aid and, 457; *book review* of advances in agronomy, vol. 9, 1284; *book review* of The mango, 1169

Ahrens, L. H., *et al.* (Eds.), Physics and chemistry of the earth, vol. 2, *book review* by W. R. Thurston, 694

Aida, T., *obituary* by T. Komai, 1327

Aircraft, *book review* of Fatigue in aircraft structures, 750

Airglow, IGY satellite research program, 795; results of IGY study of, 116

Akin, B. A. *See* M. Sanders *et al.*, 594

Alaska, longevity of Eskimos in, 16

Alchemy, *book review* of Through alchemy to chemistry, 193

Alcoholism, *book review* of Hospital treatment of alcoholism, 1494

Aldosterone, blockers of, in hypertension, 1393; inhibition of secretion of, by cholestenone, 704

Alexander, C. *See* M. Rubin, 1476

Alfalfa, absorption of C^{14}-labeled sucrose by nectaries of, 758; dissimilation by rumen bacteria of saponins of, 335

Algae, accumulation of Cs^{137}, 187; digestion of constituents of, by marine herbivores, 475; fresh-water diatoms in deep-sea cores, 1504; influence of selective light scattering on measurements of absorption spectra of, 29; vitamins in brown and red, 1500; yield of photosynthesis from band of long-wave red light, 1059

Algebra, new approach to teaching, 1320. *See also* Mathematics

Allaway, W. H.: *book review* of Advances in agronomy, vol. 9, 1284

Allen, F. H., Jr., *et al.*: Blood-group nomenclature, 1255

Allen, S. H. G., Jr., and D. M. Powelson: Effect of chloramphenicol on glucose oxidation in *Escherichia coli*, 1341

Allithiamine, reaction with metal enzyme, 1291

ALLPORT, N. L., and J. W. KEYSER, Colorimetric analysis; vol. 1, Determinations of clinical and biochemical significance, *book review* by M. G. Mellon, 89

Aluminum, corrosion rate in salt spray, 288

Alvord, E. C., Jr., and M. W. Kies: Experimental "allergic" encephalomyelitis (*meeting report*), 1122

American Association of Bioanalysts, AAAS affiliate, 767

American Association of University Professors, report on economic status of professors, 960

American Astronautical Society, AAAS affiliate, 1006

American economy, The (A. H. HANSEN), *book review* by N. H. Jacoby, 344

American idea of mission, The (E. M. BURNS), *book review* by W. R. West, 1334

American Institute of Biological Sciences, *meeting report*, 293; protest of Civil Service action on pay for scientists, 138

American Institute of Physics, announcement of *Physical Review Letters*, 623, 1036

American Medical Association, Committee on Medicolegal Problems: Blood-group nomenclature, 1255

American Physiological Society, *meeting report*, 37

Ames, B. N., *et al.*: Presence of polyamines in certain bacterial viruses, 814
Amine, poly-, presence of, in bacterial viruses, 814
Amino acid, antagonism in rat, 1051; composition of lipoproteins from chyle and plasma, 701; in control of abscission, 82; effect of temperature and pressure on tyrosine, 1055; methionine in male and female *Drosophila*, 473; as selective inactivator of synapses, 1179; supplementation of bread protein with, 874; transport of molecules into cells, 162
γ-Aminobutyric acid, inhibition of central synapses by, 284
6-Aminonicotinamide, and degenerative changes in central nervous system, 644
3-Amino-1,2,4-triazole, reversal by ethanol of catalase-depressing effect of, 520
Amiraian, K., *et al.*: Complex nature of the step in immune hemolysis involving third component of complement, 239
Ammi majus, medicinal use in Egypt, 1399
Amoeba, *Acanthamoeba* in tissue culture, 1506
Ampholyte, separation of, by continuous electrophoresis, 697
Amplification, at high frequencies, 847
amu. *See* Atomic mass unit
6-AN. *See* 6-Aminonicotinamide
Analytic geometry, new approach to teaching, 1320. *See also* Mathematics
Anaphylaxis, production with soluble antigen-antibody complexes in mouse, 1237
Anatomies of pain (K. D. KEELE), *book review* by J. B. deC. M. Saunders, 808
Anatomy, *book review* of Essentials of human anatomy, 290; *book review* of Functional neuro-anatomy, 34
Anderson, A. E., *et al.*: Alteration of clay minerals by digestive processes of marine organisms, 190
Anderson, E. C., *et al.*: Barium-140 radioactivity in foods, 283; *See also* R. Kulwich *et al.*, 338
Anderson, J. A., *et al.*: Banana feeding and urinary excretion of 5-hydroxyindoleacetic acid, 236
Anderson, L. E. *See* F. W. Janssen *et al.*, 26
Anderson, S. C., and E. P. Volpe: Burnsi and kandiyohi genes in the leopard frog *Rana pipiens*, 1048
Andervont, H. B.: *book review* of Biological aspects of cancer, 1440
Androgen, effect on threshold of response to stimulation, 322
Angiosperm, in vitro culture of excised ovules of, 342
Angiotensin, proposed nomenclature, 242
Angiotonin. *See* Angiotensin
Animal behavior (J. P. SCOTT), *book review* by J. W. Atz, 1170
Animal husbandry, *book review* of Basic animal husbandry, 871
Annual review of nuclear science, vol. 7 (J. G. Beckerley, Ed.), *book review* by L. W. Nordheim, 975
Anshen, R. N. (Ed.), Language: an enquiry into its meaning and function, *book review* by S. Saporta, 598
Antarctica, IGY ice drilling project, 331; report of IGY studies in, 115; report of IGY meteorological observations, 867; U.S.S.R. IGY station, 1107
Anthropology, contributions of R. H. Lowie to, 181; erect posture and the skull, 1106; extinct cultures in the Near East, 1419; radiocarbon dates, 1098; *book review* of The Ashanti, 870; *book review* of Pleistocene man at San Diego, 977
Antibiotics, anticancer, 506; in coral, 1174; *book review* of The clinical application of antibiotics, vol. 3, 1286
Anticoagulant, bronchodilator action of warfarin sodium, 188
Antibody, circulating, directed against penicillin, 1118
Antigen-antibody, anaphylaxis produced in mouse with complexes of, 1237; effect of complexes of, on smooth muscle, 700
Antimetabolite, BAS displacement of serotonin from tissues, 281; injury to central nervous system of mouse from, 1238
Antiseptics, disinfectants, fungicides, and chemical and physical sterilization (G. F. Reddish, Ed.), *book review* by W. Burrows, 1110
Antoniades, H. N.: Separation of human plasma protein concentrate with insulin activity, 593
3-AP. *See* 3-Acetylpyridine
Aphasia, cerebral localization, 241
Aphis gossypii, transmission of internal cork virus by, 1448
Apoprotein, preparation from ceruloplasmin, 588
APOSTOL, T. M., Mathematical analysis, *book review* by R. A. Good, 292
Apparatus, for color coding multiple-image photographs, 1119; for continuous electrophoresis, 697; diffusion chamber for implantation of microorganisms in mouse, 1337; for double monochromation in ultraviolet microspectrophotometry, 1290; for measurement of corrosion of tin and aluminum, 288; for measurement of depth of sleep, 1340; *p*H stat reaction vessel for small volumes, 338
Apple, cytochrome oxidase and phenolase activity in, 189
Applegate, V. C., *et al.*: Use of mononitrophenols containing halogens as selective sea lamprey larvicides, 336
Aprison, M. H., and A. L. Drew: N,N-dimethyl-*p*-phenylenediamine oxidation by serum from schizophrenic children, 758
Arachnoidea, electrophoresis of serum proteins of, 519
Archeology, of Cuicuilco, Mexico, 232; expedition to Sardis, Turkey, 139; Near East, 1419; radiocarbon dates pertinent to, 72, 134, 1446, 1486; *book review* of The eye goddess, 982; *book review* of Method and theory in American archaeology, 980; *book review* of Pleistocene man at San Diego, 977
Arctic, report of IGY studies in, 115
Arctic Ocean, and Pleistocene glaciation, 1159
Arctic research, scholarships for, 184
Arginine, elimination of medium changes in tissue culture with, 591
Arizona, University of, radiocarbon dates from, 72
ARMITAGE, A., Copernicus, *book review* by T. S. Kuhn, 972
Arteriosclerosis, production in rat by corticotrophin, 590
Artifact, of ancient cultures in Near East, 1419
Artificial stimulation of rain (H. Weickmann and W. Smith, Eds.), *book review* by F. W. Reichelderfer, 1044
Ascorbic acid, effect on colchicine reaction, 1389
Ashanti, The (R. A. LYSTAD), *bok review* by G. P. Murdock, 870
Ashman. *See* H. G. Williams-Ashman
ASIMOV, I. *See* B. S. WALKER *et al.*
Asophyllum nodosum, B-vitamins in, 1500
Association of Universities for Research in Astronomy, proposed optical observatory, 23
Astronomy, abundance of elements, 1063; changes in sun's polar magnetic field, 1058; IGY satellite research program, 795, 798, 801; lunar atmosphere, 325, 800; nature and color of the moon's surface, 1502; observations at the Cape of Good Hope by Herschel and Maclear, 942; optical observatory proposed, 23; report of IGY studies in, 115; solar distances and relativity, 501, 798; *book review* of Copernicus, 972; *book review* of The inner metagalaxy, 976; *book review* of Introduction to the mechanics of stellar systems, 1111; *book review* of Morphological astronomy, 343; *book review* of The stars above us, 243
Astronomy, history of, contributions of Herschel and Maclear, 942; early studies at the Cape of Good Hope, 935; *book review* of Copernicus, 972
Astrophysics, convergence with biochemistry, 1473; tektites (*meeting report*), 91
AT. *See* 3-amino-1,2,4-triazole
Atack, F. W. (Ed.), Handbook of chemical data, *book review*, 1111
Atherosclerosis, research on (*news*), 689
ATKIN, R. H., Mathematics and wave mechanics, *book review* by H. M. James, 642
Atkinson, W. B.: Double standard? (*letter*), 652
Atmosphere, composition of air trapped in glacier ice, 1288; densities of upper, 471, 1317, 1379; formula for inferring density of, 1245; IGY satellite research program, 794; lunar, sources of, 325, 800; model of thermosphere, 1317; plotting of winds in upper (*news*), 1037; report on IGY studies of, 115
Atmosphere reentry simulator, 583
Atomic clock, discrepancies in, 1107, 1283
Atomic energy. *See* Nuclear energy
Atomic Energy Commission. *See* U.S. Atomic Energy Commission
Atomic Industrial Forum, progress report published, 184
Atomic mass unit, carbon-12 proposed as reference for, 1431
Atomic weight, carbon-12 as reference nuclide, 1431
Atrioventricular node, potential change in, 873
Atwood, K. C., and S. Scheinberg: Examination of human erythrocyte populations for somatic mutation at the ABO locus, 1058
Atz, J. W.: *book review* of Animal behavior, 1170
Augochloropsis sparsilis, primitive social behavior in, 1046
Aurora, absorption of galactic radio waves during, 1047; IGY satellite research program, 795; report of IGY study of, 116
Australia, population of, 818; *book review* of Science in Australian primary schools (C. D. Hardie, Ed.), 154
Automation, contributions of N. Tesla, 1155
Axelrod, A. E., *et al.*: Effect of a pyridoxine deficiency on skin grafts in the rat, 1388
Axelrod, J.: Presence, formation, and metabolism of normetanephrine in the brain, 754

B

Babcock, H. D., and W. C. Livingston: Changes in the sun's polar magnetic field, 1058
Bacille Calmette-Guérin (BCG), 1230
Bacillus, hemagglutination reaction by phosphatide of tubercle, 1053
Bacillus cereus, assay for dipicolinic acid in spore of, 26
Bacteria, action of electron carriers on luminous, 188; antimicrobial properties of gorgonian coral, 1174; assay for dipicolinic acid in spore of, 26; dissimilation of alfalfa saponins by rumen, 335; fractionation of hydrogen isotopes, 1394; fractionation of stable isotopes

of sulfur by, 517; growth-promoting acid produced by 27; hemagglutination reaction by phosphatide of tubercle bacillus, 1053; polyamines in viruses, 814; protein biosynthesis in cell-free system, 1062; renal lesions produced in mice by streptococci, 1337; respiration of, in cancer study, 506; synthesis of oligo- and polysaccharides by *Aerobacter aerogenes,* 143; unstable nucleic acids of *Rickettsia mooseri,* 282; x-ray induction of mutation in *Escherichia coli,* 1059
Bacteriology, contributions of F. G. Novy to, 274; *book review* of Bergey's manual of determinative bacteriology, 1043; *book review* of Zinsser bacteriology, 1044
Bacteriophage. *See* Virus
Baer, J. E. *See* K. H. Beyer, Jr., *et al.,* 146
Baghdad Pact Nuclear Training Center, 806
Bair, W. J., and F. P. Hungate: Synergistic action of ethylenediaminetetraacetate and radiation on yeast, 813
Ballard, W. W.: *book review* of The life of mammals, 970
Banana, effect on urinary excretion of 5-hydroxyindoleacetic acid, 236; serotonin in, 648
Barendsen, G. W. *See* H. de Vries, *et al.,* 129
Barium-140, in food, 283
Barry, H., III. *See* P. G. Zimbardo, 84
Bartlett, P. D., and B. T. Storey: Ionic fission of the O-O bond in *t*-butyl persulfonates, 1058
BARTLEY, S. H., Principles of perception, *book review* by M. Lawrence, 979
BAS. *See* 1-Benzyl-2-methyl-5-methoxytryptamine
Basic animal husbandry (J. M. KAYS), *book review* by J. E. Foster, 871
Bat, homing of, 644
Bates, D. R. (Ed.), The planet earth, *book review* by K. B. Krauskopf, 1234
Bates, M.: *book review* of Darwin's century, 1493; *book review* of The immense journey, 966
BAUER, P. T., Economic analysis and policy in underdeveloped countries, *book review* by R. C. Jones, 1234
BAUER, P. T., and B. S. YAMEY, The economics of under-developed countries, *book review* by R. D. Calkins, 978
BEALS, R. L., and N. D. HUMPHREY, No frontier to learning, *book review* by G. M. Foster, 192
Bean (*Phaseolus vulgaris*), movement of virus across steamed areas of stems of, 1050
Bear, R. S. *See* R. S. Morgan, 80
BEATTY, R. A., Parthenogenesis and polyploidy in mammalian development, *book review* by G. Fankhauser, 524
Becker, S. W., Jr.: *Ammi majus* (*letter*), 1399; Effects of 8-methoxypsoralen and ultraviolet light in human skin, 878
Beckerley, J. G. (Ed.), Annual review of nuclear science, vol. 7, *book review* by L. W. Nordheim, 975
Bee, primitive social behavior in, 1046; recognition of sex of larvae by nurse, 1113
Beebe, W.: *book review* of The world beneath the waves, 965
Beers, R. F., Jr. *See* R. F. Steiner, 335
Beginnings of embryonic development, The (A. Tyler *et al.*), *book review* by G. Fankhauser, 1170
Behavior, avoidance "conditioning" in paramecia, 1498; effect of brief exposure to cold on lever-pressing, 467; effect of drugs on pigeon, 586; effect of drugs on sexual, of rat, 84; effect of reserpine on conditioned responses in cat, 25; effect of self-stimulation of brain, 315; interaction of heredity and environment, 585; modification by auditory stimuli paired with subcortical stimulation, 466; in *Paramecium,* 766; primitive social, in bees, 1046; reinforcement by stimulation of hypothalamus with iproniazid, 1175; research in human, 511; of reserpinized monkeys, 1503; studies of George Malcolm Stratton, 1432; tolerance of rats to lysergic acid diethylamide and mescaline, 1173; unified theory in human, 933; withdrawal versus withholding of positive reinforcement, 1456; *book review* of Animal behavior, 1170; *book review* of The concept of development, 290; *book review* of Instinctive behavior, 1112; *book review* of Schedules of reinforcement, 477
Behavioral goals of general education in high school (W. FRENCH and associates), *book review* by H. W. Syer, 1171
Behavioral science, unified theory in, 933
Beiser, S. M. *See* F. H. Allen, Jr., *et al.,* 1255
Belinfante, F. J.: Auxiliary languages (*letter*), 542
Beljanski, M. *See* S. Ochoa, 1062
BELLMAN, R., Dynamic programming, *book review* by P. C. Hammer, 976
Bender, A. E.: Nutritive value of bread protein fortified with amino acids, 874
Benfey, O. T.: Nuclear tests and ethics (*letter*), 608
Bennyhoff, J. A. *See* R. F. Heizer, 232
3,4-Benzpyrene, elution from soots by plasma proteins, 474
1-Benzyl-2-methyl-5-methoxytryptamine, displacement of serotonin from tissues by, 281
Berger, M. I.: *book review* of An educational history of the American people, 751
Bergey's manual of determinative bacteriology (R. S. BREED *et al.*), *book review* by L. W. Parr, 1043
Bergmann, P. G.: *book review* of The development and meaning of Eddington's "Fundamental theory," 34
Berry, E. W.: *book review* of Chemical engineering in the coal industry, 1042; *book review* of Directory of geological material in North America, 1286
Berzelius, J. J., age at time he produced his best work, 1215
Beyer, K. H., Jr., *et al.*: Electrolyte excretion as influenced by chlorothiazide, 146
Beyer, R. T.: *book review* of Russian-English glossary of nuclear physics and engineering; Russian-English glossary of solid state physics; Russian-English glossary of electronics and physics, 977
Bieber, R. E. *See* A. E. Teeri, 1500
Bilirubin, in vivo conjugation of, by glucuronic acid, 759
Bilirubinemia, hyper-, treatment with glucuronic acid, 1512
Billings, M. P.: Reginald A. Daly (*obituary*), 19
Biochemical cytology (J. BRACHET), *book review* by A. Tyler, 1236
Biochemical preparations (D. Shemin, Ed.), *book review* by R. C. Corley, 1385
Biochemie der Ernährung (K. LANG), *book review* by R. J. Williams, 972
Biochemistry, analysis of retina of lizard, 1442; contributions of A. P. Mathews to, 743; *book review* of Biochemical preparations, 1385
Biochemistry and human metabolism (B. S. WALKER *et al.*), *book review* by C. R. Treadwell, 641
Bioclimatology, *meeting report,* 155
Biological action of growth substances, The (H. K. Porter, Ed.), *book review* by K. V. Thimann, 1334
Biological aspects of cancer (J. HUXLEY), *book review* by H. B. Andervont, 1440
Biological investigations, of Sputnik II, 1380
Biologist, responsibilities of, 1348
Biology, IGY satellite research program, 797; Illinois natural history survey, 1490; importance in space age, 138; planetary, 1473; *meeting report* of American Institute of Biological Sciences, 293; *book review* of The biological action of growth substances, 1334; *book review* of The story of life, 1235
Bioluminescence, action of electron carriers on, 188

Pharmacologic principles of medical practice, The (J. C. KRANTZ, JR., and C. J. CARR), *book review* by P. K. Smith, 1041
Pharmacology, bronchodilator action of anticoagulents, 188; differential effects of tranquilizing drugs, 322; effect of chronic administration of reserpine to monkeys, 1503; effect of iproniazid on brain levels of norepinephrine and serotonin, 704; iproniazid treatment and metabolism of labeled epinephrine in schizophrenics 1116; and neurophysiology, 472; nicotine, 1054; tranquilizing drugs, 59; *book review* of The pharmacologic principles of medical practice, 1041; *book review* of Tranquilizing drugs, 640
Phascolosoma agassizii, oxygen equilibrium of hemerythrin, 592
Phaseolus vulgaris, movement of virus across steamed areas of, 1050
Phenazines (G. A. SWAN and D. G. I. FELTON), *book review* by H. S. Mosher, 809
Phenolase, activity in apples, 189
Phenylalanine, 3-4-dihydroxy-, effect on 3-hydroxytyramine in brain, 471
Phenylalanine hydroxylase, development in mammalian liver, 86
p-Phenylenediamine, N,N-dimethyl-oxidation by serum of schizophrenic children, 758
Pheochromocytoma, norepinephrine metabolite, 876
Philippines, American agricultural aid program in, 457; agricultural research program, 459
Philips, F. S. *See* S. S. Sternberg, 644
PHILLIPS, P. *See* G. R. WILLEY
Philosophy, inductive inference, 177; *book reviews*: Philosophy of mathematics and natural science (H. WEYL), 1440; Roots of scientific thought, 973; Science and human life, 972; The Tao of science, 1438
Philosophy of mathematics and natural science (H. WEYL), *book review*, 1440
Philosophy of science (P. FRANK), *book review* by H. Putnam, 750
Phosphatase, action of, in physiological bone destruction, 1447; alkaline, in histochemical analysis of kidney, 1342; response to substrate injection in chick embryo, 812
Phosphate, inorganic, separation by charcoal adsorption, 285
Phosphatide, hemagglutination reaction by tubercle bacillus, 1053
6-Phosphogluconic dehydrogenase, in red blood cells, 1338
Phospholipid, malignolipin in malignant human tumors, 1176
Phosphomolybdic acid, inhibition of ribonuclease by, 1392
Phosphorus-32, in purification and recovery of viruses and rickettsiae, 859
Phosphorylation, basic work on, 787; photosynthetic, by chloroplasts, 1027
Photobiology, Institute of, 1166
Photography, movement analyzed by color-coded multiple-image, 1119; *book review* of Modern applied photography (G. A. JONES), 246
Photometer, calibration for hemoglobinometry, 1377
Photoperiod, influence on *Xanthium*, 646
Photophosphorylation, by chloroplasts, 1026
Photosensitivity, effect of 8-methoxypsoralen in human skin, 878
Photosynthesis, assimilatory power in, 1026; increase in yield of, from band of long-wave red light, 1059; photochemical reactions analogous to, 1287; *book review* of Research in photosynthesis, 1041
*p*H stat, reaction vessel for small volumes, 338
Physarum polycephalum, shift of oxidases during morphogenesis in, 596
Physical Review Letters, 623, 1036
Physico-chemical effects of pressure (S. D. HAMANN), *book review* by P. W. Bridgman, 1496
Physics, contributions of K. Lark-Horovitz to, 1487; density of upper atmosphere, 471; entropy, 219; new reference nuclide for nuclidic masses and atomic weights proposed, 1431; nonconservation of parity, 565, 569; symmetry laws, 565; *book reviews*: Fundamentals of physics, 1385; Physico-chemical effects of pressure, 1496; Physics (E. HAUSMANN and E. P. SLACK), 1385; Physics (O. M. STEWART), 1385
Physics (E. HAUSMANN and E. P. SLACK), *book review* by R. L. Brown, 1385
Physics (O. M. STEWART; ed. 6 by N. S. Gingrich), *book review* by R. L. Brown, 1385
Physics, electron, *book review* of Advances in electronics and electron physics, vol. 9, 809
Physics, nuclear, *meeting report* of International Conference on Neutron Interactions with Nuclei, 247; *book review* of Neutron cross sections, 525
Physics, radiological, *book review* of Radiological physics, 977
Physics, solid-state, *book review* of Solid state physics; vol. 4, Advances in research and application, 244
Physics and chemistry of the earth, vol. 2 (L. H. Ahrens *et al.*, Eds.); *book review* by W. R. Thurston, 694
Physiology, of bone, 451; contributions of A. B. Luckhardt to, 509; of spinal cord, 472; *meeting report* of American Physiological Society, 37; *meeting report* of Society of General Physiologists, 196
Physiology, comparative, oxygen equilibrium of hemerythrin, 592
Physiology, plant, nectar secretion in alfalfa, 758
Physiology of fishes, The; vol. 2, Behavior (M. E. Brown, Ed.), *book review* by A. W. Martin, Jr., 970
Physiology of reproduction in fungi, The (L. E. HAWKER), *book review* by R. M. Page, 36
PIAGET, J. *See* B. INHELDER
Picrotoxin, blocking of peripheral inhibition in crayfish by, 521
Pictorial history of science and engineering, A, *book review* by R. P. Multhauf, 1170
Pig, development of hydroxylation enzyme in liver of, 86; immune hemolysis involving complement of, 239; potassium-40 and fat-free lean content of hams, 338; tissue culture of canine hepatitis virus in kidney of, 148; vesicular exanthema virus of, 1391
Pigeon, effect of drugs on behavior, 586
Pigeon, The (W. M. LEVI), *book review* by B. F. Skinner, 695
PIGMAN, W., The carbohydrates, *book review* by E. A. Evans, Jr., 343
Pigment, blue-sensitive component of retina of gecko, 1442; in human eye, 222
Pillemer, L., *obituary* by E. E. Ecker, 328
Pincus, G. (Ed.), Recent progress in hormone research, vol. 13, *book review* by A. S. Gordon, 344
Pituitary, interstitial cell-stimulating hormone from sheep, 32
PIVETEAU, J., Traité de paléontologie, vol. 7, *book review* by C. L. Gazin, 979
Pizzi, T. *See* W. H. Taliaferro *et al.*, 1063
Plague, bubonic, flea transfer between hosts in, 814
Planet, IGY satellite research program, 801
Planet earth, The (D. R. Bates, Ed.), *book review* by K. B. Krauskopf, 1234
Plankton, decontamination of fission products, 187; digestion of clay minerals, 190
Plant, absorption of C^{14}-labeled sucrose by alfalfa nectaries, 758; bioelectric phenomena in *Hydrodictyon africanum*, 1058; chemical sterilization of maize, 1500; cytochrome oxidase and phenolase activity in apple, 189; effect of banana feeding on 5-hydroxyindoleacetic acid excretion, 236; floral abscission

of tobacco, 82; gibberellin-induced systemic fruit set in male-sterile tomato, 816; grafting of vanilla orchid, 82; growth on rights-of-way, 575; immunochemical, studies with tomato leaf proteins, 1336; incompatibility alleles in races of *Oenothera,* 516; index to chromosome numbers of, 961; influence of gibberellin and photoperiod on *Xanthium,* 646; movement of virus across steamed areas of bean stems, 1050; nucleolar chromosome in a rust fungus, 1446; photochemical activity of digitonin extracts of chloroplasts, 1287; rock weathering and, 1061; serotonin and related compounds in banana, 648; shift of oxidases with morphogenesis in slime mold, 596; structural features in sieve elements, 1059; vitamins in algae, 1500; in vitro culture of excised ovules, 342; *book reviews*: The chemistry of plants, 641; Flora Hawaiiensis, 1335; The mango, 1169. *See also* Algae
Plant, garden, *book review* of An encyclopedia of annual and biennial garden plants, 194
Plant-growth substance, influence of gibberellin on *Xanthium,* 646
Plasma, amino acid and lipid composition of lipoproteins from, 701
Plasma protein, precipitation with ethanol under influence of sulfhydryl compounds, 872; *book review* of Die Bluteiweisskoerper des Menschen, 1285
